# WOULD THEY FOLLOW SWEDEN'S EXAMPLE?

C.C.F. Leaders in Saskatchewan are constantly quoting the example of Sweden and advocating that Saskatchewan should follow it.

Already there are many of the excellent things which the Swedish people have accomplished adopted into the scheme of public and private business of Saskatchewan.

As in Canada, Sweden provides for the unfortunate people who through no fault of their own are unable to provide for themselves.

**But**, in Sweden the people who are entirely dependent upon the State are distranchised—they are prohibited from voting at all elections.

Those who are entirely dependent upon the State in Sweden are put under State guardianship and are inmates of workhouses. —No workhouses in Sweden.

*Workhouses are in prison jails — Men guilty of manslaughter of public funds self-sufficient for life.*  
**Is this the plan of the C.C.F. for Saskatchewan?**
